About SI-BONE, Inc.

SI-BONE (NASDAQ: SIBN) is a global leader in developing procedural solutions to address clinical challenges associated with compromised bone. With expertise in biomechanical design and anatomy specific innovation, SI-BONE has built a technology platform with market-leading applications centered on the spinopelvic anatomy. SI-BONE continues to leverage the deep experience in addressing the challenges of low-density bone in the sacrum to develop unique technologies that are targeting new clinical adjacencies to help improve outcomes for patients with compromised bone. Since 2009, SI-BONE has supported physicians in performing a total of over 150,000 procedures. A unique body of clinical evidence supports the use of SI-BONE's technologies, including four randomized controlled trials and over 185 peer reviewed publications.
